Top Tier Americans - A Train More Play Less Program

- - - - X

This program design was created to bring together the “AMERICAN” people throughout our country that have the same life and baseball mindset. This program is not designed to say what state and/or region is better.

We are one nation; it is time to bring our sport back by cultivating all of our talent together to show AMERICA'S true potential.

During our time involved with Amateur baseball for the last 6 years, we have seen many players with tremendous talent throughout the country, lack fundamental skills needed to not only perform on a consistent basis but lack that needed discipline that it would take to be successful in life.

Travel baseball has created a culture where winning and short term success is at the forefront and player development has taken a backseat to the trophies. The art of Coaching, teaching fundamentals and developing leadership skills has been forgotten.

Many parents have been sucked into this WINNING AT ALL COST mentality. In the long run the player is the one that loses out on the growth and development needed to further life skills and baseball readiness.

Train More Play Less, is a mindset that was derived with the motivation to grow the player from all angles with the focus being teaching first. This focus on teaching empowers the player to grow, master a set of skills that will carry over into the game. These skills create awareness, mental toughness, and extreme confidence to execute during competition.

Winning is important! However, winning is simply a mindset developed over time, inside the mind of the hardworking. With a development first mindset, learning what it takes to win will come as the talent grows and skills become more efficient. Train More Play Less, simply identifies that we want to prepare as much as possible. We want the players be tested, to make adjustments and create a winning routine.

“

“If you train hard, you’ll not only be hard, you’ll be hard to beat.”

-Herschel Walker

”

Vision and Purpose

----- X

Our vision is to prepare these athletes to gain the life skills necessary and build athleticism so they can enter High School with confidence that they can make a difference and find success on and off the field. From High School our student athletes strive to attend a college program and pursue a career or continue their pursuit of their dream of playing baseball at the next level. This program is designed to mirror the higher education environment to better prepare our tiny humans for the next big step in their lives.

Intent to succeed

----- X

High School and College teams throughout the nation train 8-9 months out of the year, allotting 3-4 months to play the games they have prepared for; totaling 50-60 games. The question remains, “In our current culture, why are families willing to have their child play 80+ games per year?”. The excess games leave very little time to work on actual preparation, or the ability to create a foundation for the athlete both physically and mentally.

Our evaluation system is based on a National Baseline [constantly updated] to give us a better understanding of where the athlete's skill set currently is and where it should be. The data that is generated by some of the most state-of-the-art equipment, is used to compile a player development plan (PDP) for each individual. This PDP will be used by our Americans staff to monitor and help facilitate the growth and progression of each player.

Train to Compete

- - - - X

Each of our age [grade levels] divisions will have a different tournament schedule and showcase type events we will prepare for. The tournaments chosen are some of the best events for player exposure and the highest level of competition that this nation has to offer. These events will provide players, coaches, parents, and fans with a positive baseball experience and memories for life.

We will schedule a baseline of Americans tournaments before we play in the main events. These events will help build chemistry and create player bonds that cross our state borders and last for years to come.

Youth Teams 2018-2019

- - - - X

9u Team (Pre-Americans Program) Our Americans platform starts at 9 years old (9 years old is where you typically see the change on how the game is played). The practices and training become more detailed and tailored to what makes the player more efficient and most effective.

The Details 2018-2019

- - - - X

Starts May 18th and Ends OCTOBER

Our Facility is open to our players everyday.

All practices, showcases and games will be posted on our organization calendar on the Top Tier Gamers Website

*All tournaments and Showcases will have a separate fee.
2 practices per week with an addition of Speed/Agility/Strength Training*

Americans Elite Development

The Americans program is looking for the top talent and the hardest working athletes throughout our country to represent our AMERICANS program. Our focus is not only to capture the best athletes on the baseball field; we are looking for athletes that take care of their classroom responsibilities, athletes that get involved in their communities and give back.

“Our Nation’s pastime plays a very important role in my life. Baseball was a passion for me as a player, today it remains a passion.

This drives me to create a platform for those who compete and love the game as much as I do.” -Jason

We are looking for *families* that are going to shun the weekend travel baseball *hype*. We want our families to have standards, our families to understand that the coaches that will play an important role in your athlete’s life don’t care about the weekend championship rings. Coaches that matter want players that have good grades, to create athletes, build fundamentals and can compete with heart.

AMERICANS players play with their local travel/ recreational teams but must live our *Train More Play Less* guidelines (pitch count, catching standards, games played etc..)

AMERICANS players will be held to higher standards (additional mandatory training, higher academic standard, community service hours etc..)

AMERICANS players are not CRICKETS [they do not hop from team to team] our players will not guest play for other teams outside of their local team, the Americans program and other **Train More Play Less** programs.

AMERICANS players are allowed to fly into California at anytime and play with the Top Tier Gamers teams.

AMERICANS will have to continue to compete and maintain Americans standards to secure a roster spot.

AMERICANS will compete in their specified [age based] showcases in the summer months and they will have the opportunity to attend up to 6 tournaments throughout the year under the Americans Program (of which players will commit to attending 3-4 total events)

AMERICANS will have a yearly fee which will include any uniform items, coaching and training fees. Various tournaments fees will be collected based on the specified events attended throughout the year.

Americans Program provides young athletes a platform to showcase their talents to college and professional recruiters; giving them an opportunity that could potentially impact their educational future and athletic dreams.
